0 of 0 review helpful not the right book By Matthew Herrera Very misleading it is not the book it claims to be I am not pleased with this book in the least I do not need a book that only describes the diagrams in the real book b Boo this book I am sickened by the fact that someone is profiting from this stuff 0 of 0 review helpful What a wonder of a book By J H Vesterager This is a reproduction of a book published before 1923 This book may have occasional

imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate
