0 of 0 review helpful I thought it was a pretty good read By Lee Ziegelgruber I thought it was a pretty good read Wasn't boring kept you into the book Gave you a good insight how tough it was to get into the big time league of caddying for golf professionals I was surprised how little they made back then since this was back in the 80's Now they make a ton if they get lucky and find a pro that really comes into the game Today Michael Bamberger is one of the top sportswriters in the world but twenty years ago at the tender age of twenty four he reached the summit of another field — professional golf He set no course records made no monstrous putts and no television cameras followed him around But the writer received a golf education most fans only dream about He spent six months caddying on the PGA Tour Part sports book part travel adventure The Green Road Home is the Michael Bamberger went out on the pro golf tour as a caddie and returned home with a bunch of funny startling and insightful discoveries from that world Read his book to laugh and to learn About the Author Michael Bamberger
